

CURRICULUM OF THE ENGLISH CLASSES OF HYVINKÄÄ

In the English Classes of Hyvinkää instruction is given mainly in English. Pupils study Finnish in separate Finnish lessons either as the mother tongue (äidinkieli) or as a second language (S2). When learning through English the pupils are learning content and language at the same time. Main definitions in each subjects are taught in both languages (English and Finnish). In the sixth grade the amount of Finnish instruction increases in order to take the possibility of the pupils transferring to a Finnish speaking seventh grade into consideration.

Learning groups can be very heterogeneous in their linguistic backgrounds. In the starting first grade there can be pupils whose mother tongue or home language is English and at the same time there are pupils with only few experiences of the language. The general goal of the instruction is to narrow down the differences in the language skills as much as possible.

The Curriculum of the English Classes of Hyvinkää follows the contents of the Hyvinkää City Curriculum with some differences. The largest differences are found in the English subject. In the English Classes the subject is taught already from the grade 1, which means that the objectives and contents are divided between grades 1-6 when in the Finnish speaking classes they are divided from grade 3 to grade 6.

At the end of the sixth grade in all subjects the pupils should have achieved the same objectives as the pupils in the Finnish classes with stronger language skills in the English language.
